

**PINCKNEYVILLE COMMUNITY HIGH SCHOOL #101
SNOW ROUTES**

Emergency snow routes have been developed which will enable the District to be in session on days when the highways and main roads are clear but secondary roads remain too hazardous for normal school bus transportation of students. School will not be in session in most extreme weather situations and these routes will only be used as conditions allow. As side roads are opened or become passable, routes will be adjusted to cover as much of the normal route as possible.
