Transcript Requests

We use an online transcript request system through Parchment Exchange (parchment.com). The service provides the opportunity for students to request that transcripts be sent electronically to the college(s) of their choice. This expedites the process and is more reliable than mailing transcripts. To protect the privacy and confidentiality of transcript data, documents are sent through a secure transcript service in compliance with the Family Education Rights and Privacy Act (FERPA).

Your student will create an account in the coming week. Through their accounts, students can request and track transcripts, explore colleges, and analyze admissions data. There is no cost for sending transcripts to any college in Illinois, but there is a charge for some out of state schools. We will be happy to mail transcripts to out of state schools to avoid having the students pay the fees.
