So I'm a Sophomore...NOW WHAT?!!

For many of you, the fact you are no longer a freshman is a long time coming. For others, it came too fast. Whichever is the case, you must now start planning for the next phase of your life after high school.

For some, this may take you across the country, while for others it may mean a short drive to work or to one of our local colleges or universities. Regardless of your plans post high school, we have a few things that you should consider doing.

KEEP THOSE GRADES UP!!!

You might have a lot going on this year, but it's important to stay focused on your school work.

Start preparing for the **SAT**, it's not too early! Khan Academy has a great test prep program. All you have to do is create an account.

Continue to be **involved!** Remember, many college admissions and employers look for well-rounded students who participate in the world around them, so volunteer, join a club/sport, or get a part time job.

Naviance is an excellent tool for Career & College searches along with assessments to find out more about yourself and careers that fit you best!

Your Naviance login is 2020first initial, last name (2020hwilkin) and password is panthers101.
